

Enhanced Residential Treatment prioritizes family functioning and aftercare to prevent repeat stays for youth with significant behavioral health challenges. Enhanced Residential Treatment provides a shorter stay (up to 120 days) program for youth and provides families with the skills needed for a successful reunification and to support the youth in their home environment. Enhancements in discharge planning will include Family Centered Treatment (FCT) and High-Fidelity Wraparound (HFW) services.

PROGRAM HIGHLIGHTS:

- Serves male youth ages 11-17 years
- FCT stays are typically 30-45 days; HFW 60-120 days
- 24/7 nursing and support staff
- Individualized treatment plans and psychiatric care
- The School at Thompson provides one-on-one and small group instruction
- Individual, group, and family therapy
- CARE Program Model, Therapeutic Crisis Intervention
- Family Support Partners as advocates for the family
- Licensed clinicians trained in Cognitive Behavioral Therapy (CBT), Dialectical Behavior Therapy (DBT), & Family Centered Treatment (FCT)
- Treatment team works alongside the Family Centered Treatment team, High Fidelity Wraparound team, and the youth's family to ensure they are prepared and equipped for discharge to ensure positive outcomes
- Optional spiritual support
- Nationally Accredited through Joint Commission

*Each child who goes through our residential program brings their own set of strengths, stories, and skills.
It's not only our purpose to provide the children we serve with a safe place to heal and thrive,
it's our mission.*
